---

*To the Inhabitants of the Town of Milton in the County of Strafford, in said State, qualified to vote in Town Affairs:*

You are hereby notified to meet at the Town House in said Town on Tuesday, the fourteenth day of March, next, at ten of the clock in the forenoon, with polls not closing before seven of the clock in the afternoon, to act on the following subjects:

1. To bring in your ballots for Town Officers.
2. During the emergency to determine the salaries, wages, and other compensation and allowances for all persons serving the Town.
3. To see if the Town will vote to raise and appropriate a sum of money not to exceed five thousand dollars (\$5,000.00) for repairing highways and bridges for the ensuing year.
4. To see if the Town will vote to raise and appropriate a sum not to exceed six thousand dollars (\$6,000.00) to pay for breaking roads and pass any other vote or votes relative thereto.
5. To see if the Town will vote to raise and appropriate a sum of money not to exceed four hundred dollars (\$400.00) for sidewalk construction and repair and pass any other vote or votes relative thereto.
6. To see if the Town will vote to accept State Aid for construction of the Class II road known as Union to Farmington road and raise and appropriate or set aside for said purpose the sum of two thousand two hundred fifteen dollars (\$2,215.00); and/or will accept State Aid for the construction of Class V roads and raise and appropriate or set aside for said purpose

the sum of two hundred forty-nine dollars (\$249.43) and forty-three cents.

7. To see if the Town will vote to raise and appropriate a sum of money not to exceed one thousand one hundred dollars (\$1,100.00) to oil hard surfaced streets for the ensuing year.

8. To see if the Town will vote to raise and appropriate a sum of money not to exceed three hundred dollars (\$300.00) to be expended on private roads leading from "New Bridge" road, so-called, to cottages.

9. To see what sum of money the Town will vote to raise and appropriate to pay Town charges and expenses and pass any other vote or votes relative thereto.

10. To see if the Town will vote to raise and appropriate a sum of money not to exceed five hundred dollars (\$500.00) for the maintenance of hydrants in the Milton Fire Precinct.

11. To see if the Town will vote to raise and appropriate a sum of money not to exceed seven hundred fifty dollars (\$750.00) for the maintenance of the Fire Department for the ensuing year and to pass any other vote or votes relative thereto.

12. To see what sum of money the Town will vote to pay the First and Second Engineers and Firemen in addition to the amount allowed by law; to see how much per hour the Town will vote to pay the engineers and firemen while fighting fires and pass any other vote or votes relative thereto.

13. To see if the Town will vote to raise and appropriate a sum of money not to exceed three hundred dollars (\$300.00) for the purpose of maintenance of the fire engine in the Milton Mills Fire District.

## **Report of the Commissioners of the Milton Fire District**

---

Your Commissioners wish to report the water system is as in other years, doing the work it was meant to do with very little trouble. So far this year, we have had no repairs or freeze ups to contend with.

A few maintenance jobs should be done in the near future which would keep the equipment in first class condition and save future bills. The water tank should be painted both inside and out, and machinery at the pumping station should be checked, cleaned and painted.

We installed two services this year, one at Clyde Paey's residence and one at Hervey Tanner's, (Winn. Edgerly house).

The District has now paid one fourth of its bonded debt which was \$36,000 and is now \$27,000.

Respectfully submitted,

SAMUEL G. BLAISDELL,  
FRANK B. McINTIRE,  
STANLEY C. TANNER,

Commissioners.

## Report of the Forest Fire Warden

---

Crises like the present test the quality and sincerity of everyone's patriotism and citizenship. The times make such unavoidable demands for universal cooperation in the many lines of essential regular and emergency public endeavor that the response given may well be assumed to be the real measure of one's love of country and his appreciation of the opportunities it offers. Ranking high in the list of public endeavor is the protection of our forests from fire. It calls for full and generous cooperation by each of us. Fire statistics indicate that better than 98 per cent of all fires in New Hampshire are man-caused. If human carelessness could be eliminated from the problem, the number of fires would drop to a mere minimum of less than 2 per cent of present figures and fire costs and losses would reduce in proportion. While this goal will not be achieved because of the perversity of human nature, the record can be vastly improved through individual discipline, alertness and cooperation.

Discipline calls for personal restraint from following unrestricted natural impulses to do as one pleases with regard to fire; alertness in cautioning others against imprudent and illegal burning and in promptly reporting fires to the local forest fire warden; cooperation in complying with laws, rules, and regulations governing the kindling and care of fires, smoking, safety of mechanical units using fire in and near woodlands and assisting the local warden in extinguishing such fires as may occur.

The possibilities of disastrous and expensive woods fires are constantly becoming more real. The hurricane felled an estimated one and one-half billion board feet of standing timber, much of which was never

cleaned up. To this hazard has been and is being added extensive areas of slash from additional hundreds of millions cut to produce vitally needed wood for the war effort. With the stage so set, greater caution is increasingly necessary. It will pay substantial dividends in unburned forest areas and the saving of unnecessary fire expense.

The year 1943 was an extremely fortunate one because of favorable weather conditions. Many towns had no fires, some had minor fires while a few had expensive ones. The public controls the answer to the 1944 and future years' fire records. If the public is careful and cooperative the record will be good.

Your town warden is, perhaps, more perplexed and anxious during these war years than ever before because of increased forest fire hazards and diminishing supplies of available man-power. He looks directly to you to aid him. Will you? You can aid him most effectively by always securing the required permit before attempting to burn and by complying fully with permit requirements; by being patient when he advises of departmental restrictions on permit burning or that he deems it unsafe to burn; and by giving him the needed assistance in extinguishing fires when he needs your help. To do so is to meet one real test of citizenship.

## **Report of Superintendent of Schools**

Milton, 1942-1943

---

To the School Board and Citizens of Milton:

This is my tenth annual report. As usual the statistics are for the school year ending June 30, 1943. The comments made, however, cover the work of the present year.

If you will compare the statistics in this report with those given for the preceding year you will note very little change in enrollment or other figures, except the number of tardinesses. This number reported has almost tripled in every school, why I do not know. I expect that in part the increase is due to the fact that parents are either both working and the children are not therefore getting up or getting to school on time, or perhaps night work by the parents causes late rising hours. Another cause, undoubtedly is the increase of traveling difficulties due to the war.

Miss Rose Witham, teacher of grades five and six at Milton Grammar School, resigned at the close of the year and has given up teaching. Mrs. Marion Draper Kenison, an experienced teacher, who had previously taught for me, was selected to take her place. Miss Mary Willard, teacher of grade four resigned to take a much better position in Connecticut and Miss Beatrice Duquette of East Rochester, a graduate of Plymouth Teachers' College succeeded Miss Willard. Miss Carolyn Eaton was regretfully released to take a more lucrative position of one grade at Durham. A graduate of Keene Teachers' College, Miss Elinor Leonard of Rochester, has taken her place. We were fortunate in securing good teachers at a time when such are at a premium. Every day teachers are leaving the profession for better paying work and the enrollment of the teachers' colleges has fallen 40%. It looks as if the schools will suffer the lack of well qualified teachers

for several years after the war is ended whether it is this year or next. Mrs. Ethelyn Hull, teacher of the first grade at Milton was given a leave of absence because of illness until January, 1944, when she resumed her teaching. Mrs. Doris Taylor Fernald another experienced teacher took her place.

We have been disappointed in our attempts to establish music on a firm basis. We have had two supervisors in two years and when Miss O'Malley resigned we were unable to find anyone qualified to replace her. Several of our teachers are proficient in music but some are not so that the work lacks unity. We shall try again to establish the work whenever we think that it can be made continuous.

The ODT has been strict with our transportation and we are not permitted to establish or continue any route that does not start two miles or more from the nearest school and pupils must walk distances of a mile or more to meet established bus routes.

You have over sixty pupils remaining at the Village School during the noon lunch hour. Through the efforts of Mr. and Mrs. Samuel Blaisdell a hot lunch is provided for these pupils. Federal funds help to finance it through the purchase of certain approved foods. Some jars were purchased at District expense and during the Fall the pupils of Nute High School canned some foods, we furnishing the jars and the pupils doing the work, and sharing equally the finished product. The carrying on of the lunch program entails a great deal of extra work on the part of the janitor and Mr. Blaisdell is to be commended for doing it.

Time lost on the rationing program has been limited to one day this year and we are assured that there will be no further loss of time for this reason. The State Teachers' Association held several sectional meetings instead of one general meeting and all of the

teachers attended the Rochester meeting. Your superintendent attended the meeting of the New England Superintendents held in November at Boston. He has made plans to attend the meeting of the American School Administrators to be held in New York, February 22-25. Much of the superintendent's time is devoted to supervising defense courses at Somersworth and Durham but you will note from the statistical tables that there were only a few less school visits made last year. Travel restrictions prevent him from attending entertainments and other school functions held in the evening.

We have been fortunate in securing fuel but the Milton Grammar School has been forced to use buckwheat coal adding further difficulties to adequately heating that building. The School District must be prepared to replace that worn out boiler just as soon as war conditions warrant its being done.

You have also been fortunate in retaining the services of an efficient nurse. Her work should be extended to Nute High School. At the present time I understand that she is only authorized to take care of emergencies.

Our thanks are extended to the town officers for assisting us in maintaining a skating pool at the Grammar School. We lack playground apparatus and play facilities.

We ask that the reports of the Headmaster of Nute High School and School Nurse be carefully read.

Respectfully submitted,

HOWARD L. WINSLOW,

Superintendent of Schools  
Union No. 56

## Report of the Headmaster of Nute High School

---

*To the Superintendent of Schools and the Board of Trustees of Nute High School:*

Looking over the great mass of literature that comes across my desk each morning, there can be little doubt that American Education has gone to war. These great piles of mail ask the schools to cooperate to sell bonds, collect scrap, teach wartime math, teach wartime physics, join the WAVES, join the WACS, join V-12, V-5, offer adult courses, stress athletics, plow the roads, harvest the crops, take care of children, save paper, save fats, do rationing, and so forth, and so forth. And at the same time the schools are asked to do better teaching of the subject matter ordinarily included in its curriculum.

Lest the reader thinks this to be an alibi for any of our short comings, or an excuse for not having done some of the things we should have done, let me explain that all this pressure that comes from the war and its activities is not nearly so hard on the teachers as it is on the pupils. Recognizing that there is a very great mental strain on the pupils in any school system makes it a little more difficult for the administration of a school to keep the academic standards high. If a boy works all night in a shop or factory can the school expect him to do good work in school the next day? Shall the school relax its standards and accept slipshod work in the classrooms as a result of this outside employment? Shall the school overlook the attendance records of those young people engaged in outside work? These and many other questions harass the schools in wartimes but most administrators are agreed on the over-all approach to the solution of the problems.

Schools must be tolerant this year. As never before there must be a strong attempt made to show young people the advantages of and *their duty to do* good school work. (The Armed Forces have already gone on record officially concerning their whole-hearted recommendation that "getting an education is youth's first and most important job.")

At Nute High School this year we have tried to keep the above general philosophy in mind in any of the changes made.

Quite obviously the above requires the cooperation of the home. Without it the school can do only a small part of the job. It has always been important that the school and the home work together for the welfare of youth, but more today than ever before is this necessary.

### **New Teachers**

This year the Trustees elected to decrease the teaching staff by one teacher. To fill the vacancy in the Home Economics Department Miss Catherine Guyer of Hanover, N. H., was chosen. Miss Guyer is a graduate of the University of New Hampshire.

### **New Schedule**

With one less teacher than usual it was necessary to drop some of the elective courses. And in order to get in all the required courses a new schedule was made. This calls for one hour recitation periods in place of the customary forty-minute periods. Since many of the pupils are taking five subjects in a five-period day there are few who have study time in school. Consequently much of the out-of-class study must be done at home. This new schedule has worked out very satisfactorily and pupils and teachers are in favor of its continuance.

### Student Council

Anything new takes time to get organized, and the student council is no exception. Four members of each class comprise a group which handles student finances, arranges athletic schedules, assists in formulating policies of the school, and other tasks as they may appear. It is hoped that this democratic system of school management will not die of the difficulties that beset democratic processes: disinterest, and slowness of operation. In a nation that has for a long time taken for granted the system of democracy it is hoped that boys and girls in school can learn that democracy is hard work—but worth working for.

### General

Hot lunches are being served regularly to about forty each day at an average cost of 10 cents. Fresh milk is sold under government subsidy for 2 cents per half pint.

It is greatly to be desired that regular medical and dental clinics be provided at the school. At present there are no funds provided for the school nurse to visit the high school regularly.

Athletics are being carried on under difficulties. We have had a rather extensive basketball schedule this winter, and last spring we managed to get in a few baseball games, but transportation is still a problem.

### Attendance

Below is a table showing the membership of the school:

Class	Enrolled	Dropped Out	Average Attendance Before Leaving	Reason for Leaving
Senior	14	0		
Junior	18	1	7 days	Left town
Sophomore	17	1	3 days	Work

Freshman	27	4	19 days	1 Work
				2 Left town
				1 Sickness
	—	—	—	
	76	6	14 days	

As can be seen from this chart, we have been fortunate in having no more than two leave school permanently for work. We have not been so fortunate in the attendance day by day of those remaining in school. And many of the reasons for this attendance record are remediable. Sickness has caused many of the boys and girls to be absent, but there have been many who have stayed out of school for lesser reasons. Obviously a person who misses 15-35% of the school time cannot keep up with his class. And in spite of teachers' attempts to get pupils to make up work, there has been a noticeable dropping in the ranks of consistent absentees.

Consequently a provision has been made to help absentees make up the work missed. We now have a one-hour study hall at the end of the day, under teacher supervision, which guarantees at least an equal amount of time for study that the pupil has been absent.

As noted above, pupils missing a large percentage of school time are handicapped when tests come around. Most of our pupils could get passing marks if they were present each day and concentrated during their presence. The school tries to teach concentration, and good work habits. But attendance is very much in the hands of the parents. Parents who condone absences for insignificant reasons are in reality helping their children to fail courses and to develop bad school attitudes.

In conclusion, a school like Nute High, must make up its mind as to what end it shall serve. Shall the

school close its eyes to the unpleasant facts of poor classroom work, high absenteeism, and become a diploma factory, granting diplomas to those registered in the school for the requisite 4 years—learn or not learn—as the pupils' spirit moves? Or shall it demand a standard of accomplishment and citizenship before awarding its diploma?

Respectfully submitted,

JOHN L. KNIGHT,

Headmaster.

## Report of Milton Visiting Nurses Association

---

*To the Members of the School Board and the Citizens  
of Milton:*

I would like to submit to you the tenth annual report of the public health nurse as tabulated from the monthly reports on file.

Maternity Service:

Delivery,	2
Post partum,	20
Morbidity Service:	
Non communicable,	362
Communicable,	15
Health Service:

Pre school,	14
School,	469
Adult,	30
Unclassified,	7
Social service,	9

The Dental Clinic was eliminated this year. It is to be hoped that parents will find the time to take their children to their personal dentist for any dental work.

The past year has been a very healthy year at the school except for a few cases of whooping cough and 54 cases of chicken-pox.

The Public Health Nurse, Miss Myrtle Fletcher, has started an industrial health program at the North Rochester Plant of the Spaulding Fibre Company, Inc. Miss Fletcher visits this plant Tuesday and Thursday afternoons, and has given twenty-five first aid treat-

ments and forty-seven home calls as a result of this program. We are fortunate in obtaining the services of Miss Fletcher, who has had a wide experience in both public health and industrial nursing.

Plans are in progress to extend this industrial program to the other plants in this town.

It is the purpose of the Milton Visiting Nurses Association to eliminate as much night work for the nurse as possible, but due to the wave of grippe and mild influenza we experienced this past winter, Miss Fletcher has had to work day and night for the past few months. We expect that the warm weather will curtail this extra work.

Respectfully submitted,

ELMER R. WAITT,

Chairman Milton Visiting  
Nurses Association.

## **Report of Milton Branch American Red Cross**

*To the Citizens of the Town of Milton:*

May I take this opportunity to submit to you the activities of your local branch of the American Red Cross for the year 1943.

We had a war fund quota of \$700.00 to obtain in March and we were very successful in over subscribing this quota to the amount of \$970.00. Fifteen percent of this war fund was retained by the local branch for its work.

The production committee under the chairmanship of Mrs. William A. Dickson produced the usual large

number of garments, and the branch is very grateful to the women who assisted in this work.

We have several other committees which are organized and stand ready to assist in any disaster that would require the services of the American Red Cross.

The Home Service Committee which is a new development of the war has been very active in the past year. This committee works between the armed services and the home, and has obtained furloughs for service men to visit sick relatives, assist them in financial matters, provide transportation and maternity service for servicemen's wives and relayed telegrams to relatives of men in the armed forces. Financial and maternity assistance has been obtained for the wives of men in the service when they were in need of such.

The restrictions on automobile travel has provided many problems for your Red Cross in regard to transportation to doctors, hospitals and clinics, but so far we have been successful in solving all of them.

In behalf of the Executive Board of the Milton Branch of the American Red Cross, may I express our appreciation for the moral and financial support given to us by the people of Milton.

Respectfully submitted,

AMERICAN RED CROSS,

ELMER R. WAITT,  
Chairman.
